There are currently 92 active Hope Scholarship students and 284 home school students, which equals to approximately \$570,000 and \$1,760,000 in funding, respectively. a. 2024-25 State Assessment Results

The superintendent reported that state assessment results can be accessed by anyone at the [Zoomwv.k12.wv.us](https://zoomwv.k12.wv.us) website. Results showed improvements in reading, math, and science. Several schools and grade levels exceeded state averages, including Spencer Elementary's fourth grade math, Walton's fifth grade science and middle school ELA, Geary's fifth and eighth grade math and ELA, and Spencer Middle's eighth grade math and ELA. At the high school level, overall performance remained below the state average, though AP English students achieved outstanding results with 14 of 15 passing in Mrs. Westlake's class. While overall proficiency still trails the state, these results highlight the impact of targeted supports, strong instructional leadership, and new resources. The district remains committed to achieving at least 50% proficiency across all subjects.

4. 21st Century Grant Award

Roane County Schools has been awarded a 21st Century Learning Grant, providing \$250,000

annually for five years (\$1.25 million total). Funding supports the SOAR Program (Skills, Opportunities, Achievement, Resilience), offering after-school and summer programs for K-3 students at Geary, Spencer, and Walton schools. The program focuses on academic achievement, family engagement, and social-emotional learning, while addressing community needs such as poverty, absenteeism, and lack of after-school care. Launch is targeted for October. Staffing, transportation, and community partnerships were included in the grant.
