Presentations

1. Superintendent Spotlight

a. Future Leaders Program

In observance of 9-11, our Future Leaders Program team presented the American flag, as Mr. Minney recited the Pledge of Allegiance.

Tyler Caruthers, Instructor of the Future Leaders Program (FLP), announced that starting next year, the FLP will become a recognized Career and Technical Education (CTE) program, opening up opportunities for grant funding. He passionately shared the program's impact on students-especially those previously struggling-by teaching practical life skills like personal finance, emergency preparedness, CPR, and first aid. Caruthers described noticeable personal growth in students, including one formerly disruptive student who is now a class leader. Sophomore, Addison Lowe, the program's company commander, spoke about how the program helped her gain confidence, build friendships, and prepare for a future in healthcare through certifications and hands-on training. With about 60 students enrolled and more trying to join, the program's popularity is growing.

2. Public Participation

Corrie Ota set the public participation sign-in sheet out at 5:45 pm and it was removed at 5:55 pm.

Justin Shears, Gabe Boggs, and Sierra Thaxton spoke on school consolidation. Nona Perkins spoke on consolidation, over hiring, and school needs. Rachel Hays spoke on consolidation and class sizes. Ashley Glaspell spoke on board bond recovery and consolidation.

3. Policy 2322

a. Facilities and Transportation

Jerry Garner, Director of Facilities and Transportation, presented a transportation and facilities efficiency report that outlines key compliance requirements under policies 2322, 3336, and 3166. For transportation, indicators include ensuring all bus drivers are certified with up-to-date CDLs and physicals, tracking annual bus inspection defect rates, conducting monthly preventive maintenance, participating in training (though points will be lost this year due to not attending the state conference), maintaining a lean parts inventory, and monitoring spare bus ratios (currently above the 30% threshold due to aging fleet). Additional reporting includes ridership, total bus count, student ride times, and illegal passing incidents. A score of 91 out of 130 (70%) is needed, and despite a few deductions, the department expects to exceed that. On the facilities side, the

Comprehensive Educational Facilities Plan (CEFP) must be updated annually by December 1, with errors from previous drafts being corrected, while the annual safety and indoor air quality reports must be submitted on time to earn full points. Projects over \$50,000 must be pre-approved by the Department of Education to avoid penalties. Additionally, under policy 3166, a Request for Proposal (RFP) is being prepared to map 3-5 schools with digitized floor plans, integrated with 911 and local law enforcement systems. Principals are responsible for room numbering, and the state provides \$4,500 per school, with any excess costs covered locally.

New Business for Consideration and Potential Action

1. Establish Board Goals for 2025-26 School Year

Motion by Daris Harper and seconded by James Minney to approve. Motion carried. (6:55 pm)

2. Establish Superintendent Goals for 2025-26 School Year

Motion by Dennis Carpenter and seconded by Daris Harper to approve. Motion carried. (6:56 pm)

3. Update on Roane County School State of Emergency

Roane County Schools is facing a budget deficit of \$3.24 million, which has grown from the initial \$2.5 million, due to lower student enrollment, required staffing increases, and unexpected expenses. In response, the district is exploring various cost-cutting measures. One proposed solution is the closure of Spencer Elementary School, with students possibly moving to Walton and Geary, though savings would be offset by increased transportation and facility costs. A range of other cost-cutting ideas were discussed, including eliminating related arts, reducing staff, increasing class sizes, and moving to a four-day school week, though many of these are extreme and not guaranteed for approval.

Leadership has already made some budget reductions and is seeking additional funding, but tough decisions still lie ahead. A revised financial plan is being developed to meet state requirements, with a focus on transparency and minimizing negative impacts on students.

4. Proposed closure of Geary and Walton Elementary Middle Schools and the consolidation of their grades K-5 into Spencer Elementary, and their grades 6-8 into Spencer Middle School and the consolidation of Pre-K students from all schools into the space now occupied by the office of Student Support Services at Roane County High School

The Superintendent has presented us with a proposal in the form of an Impact Statement and Supporting Data to close Geary and Walton Elementary Middle Schools at the end of the 2025-26 school year, and consolidate their K-5 students into Spencer Elementary and their 6-8 grade students in Spencer Middle School, and consolidate all Pre-K students from all schools into the space now occupied by the Office of Student Support Services located at Roane County High School.

In accordance with West Virginia Code 18-5-13a and West Virginia Board of Education Policy 6204 governing school closing and consolidation, I, Dennis Carpenter, move:

1) That without at this time making a decision on the proposals, the Board approves, as to form, the Impact Statement and Supporting Data submitted at this meeting by the Superintendent.

2) That the Board directs the Superintendent to cause a Class III legal advertisement to be published of the proposed action by the Board of Education, and of the required public hearings on the Superintendent's recommendation, as set forth in the attached legal advertisement.

Superintendent's Remarks

Change orders were presented to the board to use SBA safety grant excess funds for a \$30,000 intercom system at RCHS. A low-cost (\$2,500) technology audit, funded by a Tools for Schools grant, will help identify ongoing issues. Balanced scorecards were received and will be reviewed at the next meeting. LSIC meetings are being scheduled, and a voluntary "car rider bus" program will be piloted to address Spencer Elementary traffic concerns. The board acknowledged a recent bus accident, noting all students are safe and praising the quick response. Preliminary food service data shows increased student participation, and faculty feedback survey results are in. Canvas rollout has been difficult due to hidden tech system issues-not Canvas itself. The district has found resources to fix these, with support from the State Department, and communication continues with staff. Staffing remains a challenge: a certified sub has filled the 2nd grade position at Walton after three postings, while pre-K still lacks a certified teacher. Board members were reminded of recent and upcoming trainings, including the November 15th Stonewall session.
